Guilherme Barbosa

Frontend developer | React.js | React Native | Node.js | Javascript | Typescript | CSS
São Paulo, Brazil

Summary

End Developer

With 6 years of experience in the realm of web and mobile application development, I'm dedicated to crafting user-friendly digital experiences that make a difference. My journey through the ever-evolving tech landscape has equipped me with a strong foundation in front-end development, and I'm enthusiastic about applying my skills to create a positive impact on society.

What Drives Me:

My passion for software development goes beyond just coding. I'm on a mission to leverage technology for social good. Whether it's building accessible interfaces, contributing to open-source projects, or developing innovative solutions, I'm committed to creating a better, more inclusive digital world.

Beyond the Screen:

When I'm not immersed in code, you'll find me practicing some sport, like Muay Thai, running and volleyball. I also cherish quality time with my family, so barbecues on the weekend are a must.

Experience

Kyte

Senior Frontend Developer

April 2021 - Present (3 years 4 months)

Brazil

Participate in the decision process about architecture and standards to be followed, help junior developer and deliver new features. Here the most relevant delivers were the tablet version of the app, and the brand new web version it.
